

TALPA COPILOT

Streamline your service operations and
grow predictable service revenue

TALPA's end-to-end solution is built on the 3Cs framework.
Each unlocks the complete data-to-action cycle.

CORTEX

Collects and standardizes machine data into one reliable source of truth.

COCKPIT

Visualizes fleet health and performance for smarter service decisions.

COPILOT

Makes analytics actionable, improving service efficiency and creating new revenue streams.

What is TALPA COPILOT?

COPILOT is TALPA's service assistant. It automates early alerts and repair planning, so issues are fixed before breakdowns occur. Operators can reduce downtime, manage costs better, and keep fleets running smoothly.

Scan and start *Operating Smarter* now.

The Problems We Solve

01

Breakdowns cause unplanned downtime and lost productivity.

02

Reactive maintenance creates delays and inefficiencies.

03

Managing repairs across mixed brands is complex.

What You Gain with COPILOT

Turn alerts into clear, actionable repairs.

Plan maintenance early to prevent downtime.

Simplify coordination across brands and providers.

Packages

FEATURES	What You Get	What's Included
Planned Maintenance	Timely service alerts to plan actions in time	Automated runtime-based maintenance notifications, spare part lists, and instructions
Unplanned Downtime Detection	Faster issue identification and reduced response time	Real-time monitoring and notification system
Predictive Alerts	Early warnings before failures occur	Real-time detection with AI-driven root cause analysis

The Power of TALPA Complete

While each of TALPA's solutions delivers value on its own, the full 3Cs framework, CORTEX, COCKPIT, and COPILOT, connects data and insights end-to-end.

Together, they help fleet operators increase uptime, lower maintenance costs, and manage fleets more efficiently.

Watch our 3-minute video to see the power of predictive insights.
