

TALPA COPILOT

Streamline your service operations and
grow predictable service revenue

TALPA's end-to-end solution is built on the 3Cs framework.
Each unlocks the complete data-to-action cycle.

CORTEX

Collects and standardizes machine data into one reliable source of truth.

COCKPIT

Visualizes fleet health and performance for smarter service decisions.

COPILOT

Makes analytics actionable, improving service efficiency and creating new revenue streams.

What is TALPA COPILOT?

COPILOT is TALPA's service assistant. It combines machine data into guided repair steps that help service teams act faster and more consistently. OEMs can reduce downtime, improve repair quality, and deliver a more trusted service experience.

Scan and start *Operating Smarter* now.

The Problems We Solve

01

Late issue detection drives warranty costs up.

02

Inconsistent guidance slows repair quality and timing.

03

Hard to scale smart service programs efficiently.

What You Gain with COPILOT

Provide clear, consistent guidance for faster repairs.

Reduce warranty costs through quicker fault resolution.

Support scalable smart service programs.

Packages

FEATURES	What You Get	What's Included
Planned Maintenance	Timely service alerts to plan actions in time	Automated runtime-based maintenance notifications, spare part lists, and instructions
Unplanned Downtime Detection	Faster issue identification and reduced response time	Real-time monitoring and notification system
Predictive Alerts	Early warnings before failures occur	Real-time detection with AI-driven root cause analysis

The Power of TALPA Complete

While each of TALPA's solutions delivers value on its own, the full 3Cs framework, CORTEX, COCKPIT, and COPILOT, unlocks the complete data-to-action cycle.

Together, they help OEMs cut warranty costs, strengthen dealer performance, and deliver more reliable service to customers.
